GOVERNMENT OF THE HOSPITAL.

A BOARD of Management, styled the Weekly Board, meets in the Board Room of the Hospital every Wednesday, at 11 a.m., for the transaction of the ordinary business.

A Court of Governors is held on the last Thursday in the months of February, May, and November for the confirmation of such acts of the Weekly Board as require the sanction of a Court, and the transaction of special business. A Special Meeting of this Court may be called at any time, either by order of the Court or of the Weekly Board, or upon the requisition of the Treasurers or of any five Governors.

The Patrons, President, and Vice-Presidents are *ex-officio* Members of the Court, of the Board, and of Committees of a Court or Board.

THE MIDDLESEX HOSPITAL.

REPORT FOR 1917.

To the Court of Governors.

MY LORDS, LADIES AND GENTLEMEN,

During the past year 5,087 patients were admitted to the Wards for treatment as compared with 5,526 in 1916. The number of beds occupied daily throughout the period was 311·72, a decrease, which was due to the closing of the Wards in turn during the summer months, whilst cleaning operations were in progress, and to the fact that the average length of stay of all patients, with the exception of those in the Gynaecological Wards, was considerably greater.

In the Out-Patient Department 48,556 new patients received treatment, a reduction of 460 patients compared with the figures for 1916. The number of attendances, on the other hand, rose from 156,578 to 164,859, giving an average of 3·39 attendances as against 2·87 attendances per patient in the previous year.

With the exception of the Departments for Nervous Diseases, Lying-in cases and Diseases of Women, all the Special Departments show decreased figures ; medical and surgical Out-patients were also less, but the number of medical and surgical casualties, especially the latter, was greater.

Several members of the Honorary Medical and Surgical Staff are serving abroad, and all those who are at home are associated with one or other of the Military Hospitals, and combine that service with their ordinary duties here. In spite of the extra pressure of work imposed upon them those who remain have risen to the occasion, and, ably supported by the Nursing Staff, have enabled the Charity efficiently to discharge its obligations towards the patients.

It will be noticed from the Income and Expenditure Account that the Annual Subscriptions amounted to £6,039 0s. 5d., a welcome improvement of £1,086 8s. 10d.. The receipts from Donations, on the other hand, only amounted to £4,260 18s. 7d. as against £6,327 19s. 10d. in 1916, but that year was a particularly prosperous one in this respect, and a comparison with the amounts received from Donations for the last ten years shows that the average has been maintained.

The following contributions, by reason of their liberal character, are worthy of mention :—

A grant of £5,000 was received from King Edward's Hospital Fund for London, together with a special grant of £1,000 towards the cost of recent improvements, which appears in the Balance Sheet under "Building and Equipment."

The awards from the Hospital Sunday Fund and the Hospital Saturday Fund were £3,210 13s. 9d. and £929, as compared with £3,034 1s. 8d. and £1110 respectively in the previous year.

The yield from Invested Property was £5,681 10s. 5d., or £575 4s. 6d. less than the amount of income received from this source in 1916.

The Trustees of the "Annie Zunz" Bequest have again shown their sympathy with the work of the Maternity Department by making a grant of £750 towards the cost of the maintenance of the "Annie Zunz" Wards during 1916.

From Legacies available for maintenance, the most important, and, at the same time, the most fluctuating source of revenue, only £3,927 0s. 6d. was received. As the average annual receipts, during the 10-year period 1907 to 1916, from legacies which were available for the general maintenance of the Hospital was £15,224, the seriousness of this loss of income is at once apparent.

Among the legacies were securities valued at £2,079 14s. 8d., a further payment from the executors of the late Mrs. Joanna Tulke; £500 from the executors of the late Mrs. A. M. Baird; £400 from the executors of the late Mrs. Elizabeth Barrell; a further £269 2s. 0d. from the executors of the late Charles Vivian, Esq.; and a further £250 from the executors of the late Colonel John Hill.

The following Donations and Legacies have been received and invested on behalf of the Permanent Endowment Fund :—

		£	s.	d.
Messrs. Barnato Bros., for the endowment of the "Mrs. Kate Joel" Bed	1,050	0	0
Mrs. Karslake for the endowment of the "Leonore" Cot in Princess May Ward ...		525	0	0
Lts. Paul and Keith Wood, once Students of the Medical School, who died leading their men at Gavrelle, 1917, and Givenchy, 1915, for the endowment of a cot	525	0	0
The Executors of the late Charles Burge ...		500	0	0

Mrs. Douglas Cow, 1st instalment towards the endowment of the "Marion Roalfe Cox" Bed in memory of her father	100	0	0
The Executors of the late Charles Vivian, a further	78	9	9

The total Income from all sources was £38,148 19s. 1d. as compared with £45,644 6s. 0d. in 1916.

An increase on the Expenditure side of the Account was inevitable, in view of the continued rise in the price of every commodity, and every form of labour employed in the Hospital's service.

A comparison made between the prices paid in 1917 and those which prevailed in 1913, the year before the War commenced, shows advances of 150 per cent. in the cost of meat, 110 per cent. in the cost of bread, and 115 per cent. in the cost of milk. The cost of other articles of food, of drugs, instruments and appliances, and of all classes of material show approximately the same upward tendency, and, although rigid economy has been exercised, every division of expenditure on Maintenance and Administration, with the exception of Management and Finance, shows an increase.

The cost of Management works out at 2.99 per cent. of the total cost of Maintenance and Administration.

The following statement shows the average cost incurred, under the various headings of Maintenance and Administration, in the treatment of a patient for one week in 1913, 1916 and 1917 :—

The average total cost of each in-patient per week during the year 1917 was £2 9s. 2·15d. as against £2 3s. 4·63d. in 1916, an increase of 5s. 9·52d. In 1913, a pre-war period, the same service cost £1 13s. 1·15d. or 16s. 1d. less than the cost to-day.

The total expenditure amounted to £52,474 4s. 1d., a sum which exceeded the total income for the year by £14,325 5s.

We have already referred to the marked falling off in the receipts from legacies, which more than accounted for the diminution of income, and to the general rise in prices, which added so greatly to the expenses incurred in providing for the maintenance of the Hospital.

All deficiencies have to be met by the sale of general capital, which consists of legacies, which—bequeathed for general maintenance purposes—were set aside, in more prosperous years, and are held in reserve to meet shortages of income.

From time to time we have had to obtain your sanction to the sale of securities and certain properties forming part of this available capital, the value of which, as the Balance Sheet shows, stood at £36,694 2s. 7d. at the close of the year. That sum included the Brixton Estate, practically the whole of which has also been disposed of under an authority of the Court, and certain securities which are held to cover loans from the Bankers.

Unless the receipts from legacies improve, not only will these liabilities have to be met by the surrender of the securities earmarked for the purpose, but the balance of the general capital will have to be encroached upon further.

The care of the sick and suffering, in normal times a service worthy of support, is now a matter of supreme importance, when the health of the community ranks as a national asset which has to be realised.

The Hospital has done much to preserve that security, and by its treatment of wounded men it has rendered an additional service to the Country.

With a reduced income, and the added burden of increased prices, its resources are now strained to the utmost.

Disquieting as the financial position is, we know that the Hospital has passed through crises more acute in the past, and we are confident that, with the generous aid of those who sympathise with its purpose, its present difficulties will be overcome.

The Branch Hospital at Clacton-on-Sea, which has been used exclusively for the care of wounded soldiers since the commencement of the War, has done excellent work during the past year.

The cost of the maintenance and administration amounted to £6,957 18s. 6d. as against £5,793 16s. 3d. The number of patients under treatment was 2,391, an increase of 598 on the figures for the previous year. More work was done, therefore, and at a cheaper rate, for the average cost shows a saving of 7s. 8·91d. per patient per week.

We are deeply grateful to Mr. Comyns Berkeley and Mr. Victor Bonney who, at great personal inconvenience and sacrifice, continue in charge of the patients at the Branch Hospital. They have

been loyally supported by the Matron, Miss Morgan, and all the members of the Nursing Staff, who have ably borne the heavy burden imposed upon them.

We have pride in the knowledge that from the outbreak of the War until the end of 1917 the Hospital and its Branch Hospital have been responsible for the treatment of 8,281 wounded men, 6,950 of whom were dealt with at the Branch Hospital.

Our thanks are due to Messrs. Schweppes, who supply gratuitously all the siphon soda water required for the patients; to Messrs. W. E. and F. Faulkner who have kept the soldiers regularly supplied with tobacco and cigarettes, and to many thoughtful friends who have, from time to time, forwarded various other gifts in kind.

We are most grateful to the British Red Cross Society, the St. Marylebone War Hospital Supply Depot, and Queen Mary's Needle-work Guild for valuable gifts of stores for the benefit of the soldiers under our care.

The Ladies' Work Society, under the Presidency of the Dowager Countess of Derby, continues to afford us most valuable assistance. Notwithstanding the additional calls which have been made upon their time the members are still mindful of the welfare of our patients, for whom the usual number of garments have been delivered. We are most grateful to the Society for their kindness and generosity.

We have also to thank the Dowager Countess of Derby for a generous gift of clothing for the babies in the Maternity Wards, and for her kindness in contributing £55 8s. 3d. towards the maintenance of the Bird Ward.

We also desire to express our deep appreciation of the valuable help we have received from voluntary workers in various departments of the Hospital and to pay a special tribute to the spirit which has been shown by those ladies who attend daily in the Operating Theatre, and convey the patients from and to the wards.

We have to record our deep regret at the death of His Royal Highness the Prince Christian, a Vice-President of the Hospital.

We have to record with profound regret the death of Mr. Arthur James, M.V.O., a Vice-President of the Hospital. Mr. James regularly attended the meetings of the Weekly Board and took a keen interest in every branch of the Hospital's work. He was a generous and liberal subscriber to its funds, and every scheme which was introduced for the improvement of the Hospital's service, received his sympathetic support.

The memorial which he established to his brother, the late Mr. William James, in the form of a Trust Fund of £20,000—the income of which is applied to research work into the cause of cancer, was but one instance of his munificence and indicates the generous spirit in which he sought to encourage and strengthen the development of the Charity.

We have also to deplore the loss of Lt.-Col. T. Lambert Mears, M.A., LL.D., who joined the Weekly Board in the year 1895. He was an expert in legal and financial matters and for many years, as an honorary auditor, exercised most careful supervision over the

accounts of the Charity. He was also extremely interested in the scheme for the establishment of the Branch Hospital and Convalescent Home, and was intimately concerned with the negotiations for the purchase of a site at Clacton-on-Sea, and with the erection and equipment of the building, which has added so largely to the efficiency of the Hospital's service.

Miss G. M. Thorold, who held the post of Lady Superintendent of the Hospital from 1870 to 1905, passed away on the 15th of January after a short illness, at the age of 78.

By her death another link with the past was broken, a past which holds records of progress made in building up, by proved efficiency, the reputation of a Hospital which now stands in the front rank. In that pioneer work Miss Thorold played a most important part, and she had the satisfaction of observing the fruitful results of the helpful influence she had exercised. Her pride in the Hospital's name and usefulness was very real, and it may be said with truth that she held her life dedicated to its service. The news of her death caused genuine sorrow to all those who had the privilege of knowing her.

We have also to express our sincere regret at the death of Col. William Duncan, Consulting Obstetric Physician to the Hospital. Col. Duncan joined the Honorary Staff in 1884, and from that date until he retired in 1918 he served the Hospital and its Medical School most loyally and did his utmost to advance their interests.

We have accepted with regret the resignation of Dr. F. J. Wethered, a Physician of the Hospital, and we wish to record our high appreciation of the services which he rendered to the Hospital and the Medical School since he joined the Honorary Staff in 1899. We earnestly trust that freedom from his arduous duties will be the means of restoring him to his accustomed good health, the unfortunate impairment of which prompted his retirement.

We have had to accept the Hon. Sir Arthur Stanley's resignation of the office of Honorary Treasurer of the Hospital. Sir Arthur Stanley has always taken the keenest possible interest in the work of Charity, and still retains that interest, although allegiance to St. Thomas's Hospital, with which, as Treasurer, he is now associated, debars him from continuing actively to serve it.

At the last Court of Governors Sir Arthur was appointed a Vice-President of the Hospital in recognition of the valuable assistance he has given us in the management of the Hospital's affairs, and as a tribute to that true spirit of philanthropy which marks his constant efforts.

Dr. D. R. C. Shepherd has resigned the office of Resident Medical Officer, a post which he filled for six years with conspicuous ability; Dr. M. E. Robinson has been appointed to succeed him.

The value of massage and remedial exercise in connection with the treatment of patients, especially wounded soldiers, is now generally recognised, and a Training School has been established at the Hospital for the instruction of pupils, who, under skilled supervision, undertake the treatment of In-patients and Out-patients. The School is conducted in direct association with the Electrical Department,

and Miss A. M. Ryde, who was certificated by Dr. Arvedson, of Stockholm, and holds the certificate of the Incorporated Society of Trained Masseuses, has been engaged as Resident Masseuse and Teacher in charge of the School. She is also responsible, under Dr. C. R. C. Lyster, the Medical Officer in charge of the Electrical Department, for the treatment of the patients.

We have been co-operating with the Local Government Board, the London County Council and certain Borough Councils in the scheme for the treatment of venereal disease. The accommodation of the Skin Wards has been increased by the reconstruction of certain rooms on the first floor over the Out-patient Department to form two wards, each of which contains three beds, which are used as occasion requires for patients referred for in-patient treatment under the scheme. During the year 569 new patients were dealt with at the special clinics, the attendances numbered 5,527, and 1,247 "in-patient" days of treatment were given to persons suffering from the disease.

During the past year work at the Bland-Sutton Institute of Pathology has undergone a great increase. Not merely have the investigations of cases in the Hospital become more numerous, but also there have been intensive studies on problems directly arising out of the war, especially the extension of researches on Flavine antiseptics in the treatment of septic wounds. In our last report we were able to announce that as a result of work carried out in the Institute the remarkable antiseptic properties of Flavine had been discovered, and that its successful application in the treatment of infected wounds had been demonstrated in the Wards and Out-Patient Departments of the Hospital. The experimental researches on Flavine were conducted in co-operation with the Medical Research Committee, who made arrangements for establishing the production of the drug. Since sufficient supplies have become available reports confirming its value have been numerous and recently a highly favourable record of the use of Flavine in over 5,000 war wounds has been published by Army Surgeons.

The participation of the Hospital in the important operations of the Venereal Diseases Scheme has caused a very considerable access of work to the Institute, since, as a Laboratory Centre, it co-operates actively with the Treatment Centre of the Hospital both in diagnosis and in the serological control of treatment. Modern laboratory investigations in venereal diseases, while they mark a great advance on the methods of a few years ago and afford invaluable assistance to the clinician, have not yet arrived at a stage approaching finality, and the Institute is co-operating actively in research work with the Medical Research Committee with the object of further perfecting such methods. It is a tribute to the value of the investigations pursued in the past at the Institute that the Medical Research Committee in its recommendation of four methods of performing the serum test, has included that elaborated by Dr. Browning and his co-workers.

The enormous wastage of life and health incurred in this World War has caused the nation to concentrate its attention upon the problem of abolishing all disease of a preventable nature and of

mitigating the ravages inflicted in the large proportion of cases where prevention is impracticable. The Laboratories of the Hospital must play a great and ever-increasing part in the full development of work so important for the welfare of the country, since it is in the laboratory alone that the tedious, but essential, preliminary investigations can be carried out, which afford a lead as to the direction in which fresh successful clinical applications may be sought. Hitherto the important part which a Hospital Laboratory should play in the discovery and introduction of new remedies and methods of treatment, has not in general been adequately recognised, and there has been a great tendency to shirk from tackling important practical problems of disease.

The valuable results already obtained by the researches on Flavine open up a bright prospect for the Institute's contribution to future advances in this important field. But it is only by the widest scientific co-operation that the highest success is likely to be attained. The Institute in its present state, while admirably equipped for the greater part of the biological branches of such work, is deficient in the essential facilities which can only be afforded by the synthetic chemist. For the present an attempt has been made to surmount this difficulty by enlisting the interest of chemists in other laboratories, both those attached to scientific institutions and also the research laboratories of important technical and industrial undertakings, and valuable facilities of this kind have been arranged in more than one direction. It is recognised, however, that this all-important department of research must eventually become an integral part of the activities of the Institute. When this is attained the laboratory work which is a necessary preliminary before the Physician and Surgeon can apply the fruits to the relief of human suffering, will be carried out by the Hospital on the broadest basis.

Below are set out some of the contributions which have been received during the past year for the Research Fund in connection with the Bland-Sutton Institute of Pathology (Melhado Memorial):—

The Institute has recently lost the valuable services of its Bacteriologist, Dr. T. J. Mackie, who during absence on military duty has been appointed to the newly created Wernher-Beit Professorship of Bacteriology in the University of Cape Town, a post the duties of which he has now taken up by permission of the Army Council.

Miss Langridge, Sister of Queen Mary Ward, has resigned after over 20 years service, 15 of which were spent in the Cancer Charity. The whole of her career at the Hospital was marked by intense devotion to the patients under her care, and all her actions were influenced by a sincerity of purpose and a true spirit of helpfulness which brought bodily comfort and ease of mind to the many who turned to her in their hour of trial. She was an ideal Sister in the fullest sense of the word.

Miss A. Davis has resigned the post of Night Superintendent and Miss Jeannette Hughes has been appointed to the vacancy.

Miss Habgood, the Sister of King's and Alexandra Wards, has been appointed Senior Home Sister and Miss Florence E. Dunkerley, Junior Home Sister.

Miss Ada Doyle has been promoted to the post of Sister of Cambridge and Hertford Wards in succession to Miss K. MacMahon, who left to join the Military Nursing Service.

THE MEDICAL SCHOOL.

TWO Casualty Medical and Two Casualty Surgical Officers, Two Resident Officers to the Special Departments, Eight Resident House Surgeons, Six Resident House Physicians, and Two Resident Obstetric and Gynaecological House Surgeons, are appointed annually from among the qualified Students of the Hospital, besides a Medical Officer and Medical, Surgical and Obstetric Registrars, and a Registrar to the Cancer Wing.

Three Open Entrance Scholarships of the value of £100, £50 and £25, and a Scholarship of £50 open to Students of Universities who have completed their Anatomical and Physiological Studies, are awarded at the commencement of the Winter Session. An Entrance Scholarship is awarded annually to a Pupil of Epsom College who has passed the First examination for Medical Degrees of the University of London. A Scholarship of £50 is awarded to New Zealand Students who have passed their examinations in Anatomy and Physiology and who are proceeding to take a qualification in England. An Exhibition of £10 10s. is awarded at the end of the second Winter Session for proficiency in Anatomy and Physiology. The Hetley Prize of £25, the Leopold Hudson Prize of £11 11s., and the Lyell Medal and Scholarship, value £55 5s., are awarded annually. Two Broderip Scholarships, of the value of £60 and £40 respectively, are awarded to fifth year's Students for proficiency in Clinical knowledge. The Freeman Scholarship, of about £30, is awarded annually to Senior Students for proficiency in Obstetric Medicine. The Murray Medal and Scholarship of £25 is awarded every third year. Two Cancer Research Scholarships of the value of £100 each and one of £60 are awarded annually. Class Prizes are also awarded. Certain of these Scholarships have been modified during the period of the War.

The Tutors superintend and assist the Students in their studies without extra fee, and thus the necessity of obtaining private instruction away from the Medical School is obviated.

The General fee for the curriculum required by the Royal Colleges of Physicians and Surgeons and the Society of Apothecaries is 135 Guineas, if paid by instalments 145 Guineas; by London University 145 Guineas, or 155 Guineas by instalments. For Students who have passed the First examination for Medical Degrees 120 Guineas, or 130 Guineas by instalments. For Members of Universities recognised by the General Medical Council, and others who have completed their Anatomical and Physiological Studies, the fee for admission as General Students is 70 Guineas, or 75 Guineas by instalments. Fee for Dental Students 54 Guineas, if paid by instalments 60 Guineas.

Students who have registered, but who do not desire to take the whole Curriculum, may take out any courses of Lectures, Tutorial Classes, or Special Classes separately.

For the subjects for the Entrance Scholarships and any additional information apply to the Dean of the Medical School.

GOVERNMENT OF THE CHARITY.

A BOARD of Management, styled the Weekly Board, meets in the Board Room of the Hospital every Wednesday, at 11 a.m., for the transaction of the ordinary business.

A Court of Governors is held on the last Thursday in the months of February, May, and November for the confirmation of such acts of the Weekly Board as require the sanction of a Court, and the transaction of special business. A Special Meeting of this Court may be called at any time, either by order of the Court or of the Weekly Board, or upon the requisition of the Treasurers or of any five Governors.

The Patrons, President, and Vice-Presidents are *ex-officio* Members of the Court, of the Board, and of Committees of a Court or Board.

THE CANCER CHARITY
OF
THE MIDDLESEX HOSPITAL.

REPORT FOR 1917.

To the Court of Governors.

MY LORDS, LADIES AND GENTLEMEN,

At the commencement of the year there were 91 patients under treatment in the Cancer Charity, and during the year 239 new patients were admitted.

The average stay of each patient was 98·87 days, and the average number of beds occupied daily throughout the year was 89.

In the Out-Patient Department 199 new patients received treatment as against 123 in 1916, the total attendance amounting to 562, as compared with 439 in the previous year.

In our analysis of the Income and Expenditure Accounts we deal, as in former years, only with those funds which were obtained for, and the expenditure incurred in providing for, the maintenance of the 49 beds comprising the original Charity. The expense of maintaining the remaining 43 beds, an exact proportion of the cost of the upkeep of the Charity as a whole, is defrayed by the Trustees of the Barnato-Joel Charity out of the Funds under their control.

The following table shews at a glance the Income of the Charity for the years 1916 and 1917 :—

	1916.			1917.			Increase or Decrease in 1917.
	£	s.	d.	£	s.	d.	
Annual Subscriptions ...	1,252	13	6	1,178	12	6	- 74 1 0

Alms Boxes	77	17	0	68	9	2	- 9 7 10

Legacies (bequeathed for purposes of general maintenance)	643	18	5	340	0	0	- 303 18 5

In comparing the receipts from subscriptions and donations which shew decrease of £74 1s. 0d. and £743 16s. 9d. respectively, it must be remembered that a special appeal was issued in 1916 and that the generous response which was made to it added considerably to the income derived from these sources during the year.

Amongst the contributions received in 1917 were £450 from "Anonymous"; £100 from Miss Fanny M. Marriage, representing the proceeds of her annual sale of jam and pickles; £100 from the Delmar Charitable Trust; £31 10s. 0d. from Mrs. Alfred Hughes; £31 10s. 0d. from Captain H. E. Butler; and £25 each from W. Carrington, Esq., and Major E. H. M. Elliott.

A sum of £100 was received from Mrs. Douglas Cow as the 1st instalment for the endowment of the "Marion Roalfe Cox" Bed, in memory of her mother.

The total income of the Charity amounted to £6,007 16s. 8d. as compared with £6,809 1s. 5d. in the previous year.

All the items of expenditure under Maintenance and Administration, with the exception of "Surgery and Dispensary," Management and Finance, shew an increase. The total average cost of the treatment of each patient per week being £2 9s. 8·90d. as against £2 7. 8·11d. in 1916.

The total expenditure amounted to £6,629 13s. 7d. leaving an excess of expenditure over income of £621 16s. 11d. to be met from the Capital Account.

The contributions to the Cancer Investigation Fund included :—

Dr. W. S. Lazarus-Barlow has resumed charge of the Cancer Research Laboratories after two year's service with the R.A.M.C. in France.

The income of the Cancer Investigation Fund was £1,644 14s. 2d., an improvement of £140 14s. 4d.

Early in the year Dr. Sidney Russ, the Physicist to the Hospital, and Mr. C. R. C. Lyster, the Medical Officer in charge of the Electrical Department, applied themselves to the problem of safe-guarding operators in our own and other Electrical Departments. The protective measures which they originated constitute a marked advance towards the immunisation of the workers. Subsequently, Dr. Russ was invited by the Medical Research Committee to draw up a scheme and undertake a research upon the physiological and pathological effects of repeated small dose of X-rays.

After consultation with the Cancer Investigation Committee we agreed that inasmuch as the enquiry forms an integral part of the Cancer problem it should be carried out in the Cancer Research Laboratories. Dr. Lazarus-Barlow, Dr. Russ, and Mr. Lyster were appointed as a sub-committee to superintend the conduct of the research which will probably extend over several years, but, in view of the importance of the subject under present war conditions, interim reports on the progress of the work will be issued.

Dr. Helen Chambers and Miss Gladwys Scott have been appointed to carry out the biological parts of the investigation which has already begun.

It may be pointed out that the large amount of work being carried out at the present time in the numerous Electro-therapeutic departments in civil and military hospitals render such a research of great importance. The number of medical officers, nurses, and non-medical assistants employed in these institutions being relatively small, as compared with the ever-growing amount of work to be carried out, it follows that they are exposed to X-rays during the greater part of the day. And, though much has already been done to render the installations as safe as possible, it is necessary in the interests of these workers to determine exactly what risks they run, and reduce them to a minimum.

In conclusion we wish to thank all those who contribute so generously towards the maintenance of this Charity. There is none more deserving of pity and help than the incurable cancer patient who looks to us for such relief as science and trained nursing can give, and, urgent though the calls from other directions may be, his should be heard and heeded.

C. G. GATHORNE HARDY:

Vice-Chairman of the Weekly Board.

THE BOARD ROOM, THE MIDDLESEX HOSPITAL.

28th March, 1918.
